- ◆ Removes odors, as well as discoloration
- ◆ May be applied with a hand spray bottle or other low-pressure spray system
- ◆ Has microbicides to kill germs and odors associated with pet and children's accidents and mishaps

ISC© Industrial Strength Cleaner© is the preferred cleaner for those everyday situations in the industrial and commercial workplace.

If cleanup of everyday accumulations of grit and grime, mold and mildew, heavy foot traffic or every light hydrocarbons such as fuel, machine oil or light grease is required then ISC© Industrial Strength Cleaner is the solution. ISC© Industrial Strength Cleaner differs from other industrial cleaners. ISC© Industrial Strength Cleaner is based on our heavy industrial and oil industry formulations designed for

extremely hard to manage environmental cleanup problems. This "family" history translates in efficient service with low application cost.

ISC© Industrial Strength Cleaner, like all other PLUTUS Products, are non-hazardous, contain no abrasives, acids, butyl-based components, phosphates, nitrites or nitrates. ISC© Industrial Strength Cleaner may be safely rinsed down the drain without harm to the environment or injury to human life. Most plant or shop floor cleanup chores are accomplished with a routine mop and rinse application.

ISC© Industrial Strength Cleaner is ideal for ceramics, concrete, epoxy, linoleum tile, vinyl or wood. Full strength ISC© Industrial Strength Cleaner will remove wax coatings on floors. A cup of ISC© Industrial Strength Cleaner to a standard mop bucket of water followed by a clean water rinse is usually all that is needed. Hot water works best, but cold water may be used.

Hydrocarbons, or heavy accumulations of dirt, grit or grime, mold or mildew may need a heavier dosage of ISC© Industrial Strength Cleaner followed by a scrubbing with a broom or deck brush. A clean water rinse from a hose or pressure washer will remove the problem without leaving a film or residue.

Walls may be washed with ISC© Industrial Strength Cleaner with the normal strength shown above. ISC© Industrial Strength Cleaner is safe for all industrial paints, but should not be used on residential latex paint.

ISC© Industrial Strength Cleaner can be sprayed or wiped on light fixtures, ceiling fans, air vents, or any surface that is discolored from cigarette smoke or nicotine. The discoloration as well as odor will be removed.

Windows and mirrors can be cleaned with a 1:50 ISC© Industrial Strength Cleaner dilution in water. Simply spray the glass surface and wipe dry with a paper towel or lint free wipe. Mold and mildew should be treated with a full strength spray of ISC© Industrial Strength Cleaner. The spray may be applied with a hand spray bottle or other low-pressure spray system. Rinsing is not required unless the build up is extremely heavy.

ISC© Industrial Strength Cleaner is a safe and effective cleaner for daily routine chores at day care and vet clinics, because ISC© Industrial Strength Cleaner has microbicides to kill germs & odors associated with pet and children's accidents and mishaps.
